

## 100 Year Anniversary of the Profession of Physical Therapy

WRHN Members,

Today is the 100 year anniversary of the profession of physical therapy. Although there is much to be concerned about in the world right now, I hope we take a moment today to be grateful to a profession that we love—express gratitude to our staff, our patients, and our families—who in many cases supported us through the ups and downs of career paths and graduate school. The future of physical therapy is bright. The opportunities are growing but are not without their associated challenges. We look forward to continuing to partner with you.

At WRHN we are excited for what the future holds. We are continually working on ways to increase payment, improve quality, and assist our members in raising the bar in how they practice. Here's to another 100 years of growth of the profession. Look for more news from WRHN throughout 2021.
